NOTES TO FINANCIAL STATEMENTS

NOVEMBER 30, 2015 (UNAUDITED)

1. ORGANIZATION

The Clark Fork Trust (the “Trust”) is registered as an open-end management investment company under the Investment Company Act of 1940 (the “Act”) and is organized as a statutory trust under the laws of Delaware by the filing of a Certificate of Trust on October 28, 2010. The Trust is authorized to issue one or more series of beneficial interests and issue classes of any series or divide shares of any series into two or more separate classes. The Trust currently consists of one series of units of beneficial interest (“shares”) called the Tarkio Fund (the “Fund”). The Fund is a non-diversified fund. The investment adviser to the Fund is Front Street Capital Management, Inc. (the “Adviser”).

The Fund’s investment objective is long term growth of capital.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. These policies are in conformity with accounting principles generally accepted in the U.S. (“GAAP”).

SECURITY VALUATIONS: All investments in securities are recorded at their estimated fair value, as described in Note 3.

FEDERAL INCOME TAXES: The Fund’s policy is to comply with the requirements of Subchapter M of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all of its taxable income to their shareholders. Therefore, no federal income tax provision is required. It is the Fund’s policy to distribute annually, prior to the end of the calendar year, dividends sufficient to satisfy excise tax requirements of the Internal Revenue Code. This Internal Revenue Code requirement may cause an excess of distributions over the book year-end accumulated income. In addition, it is the Fund’s policy to distribute annually, after the end of the fiscal year, any remaining net investment income and net realized capital gains.

The Fund recognizes the tax benefits of certain tax positions only where the position is “more likely than not” to be sustained assuming examination by tax authorities. Management has analyzed the Fund’s tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded as of or during the year ended May 31, 2015, related to uncertain tax positions taken in the Fund’s tax returns for its 2012-2014 fiscal years or expected to be taken in the Fund’s tax return for its 2015 fiscal year. The Fund identifies its major tax jurisdictions as U.S. Federal tax authorities; however the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the six months ended November 30, 2015, the Fund did not incur any interest or penalties.

USE OF ESTIMATES: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported

TARKIO FUND

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOVEMBER 30, 2015 (UNAUDITED)

amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

DISTRIBUTIONS TO SHAREHOLDERS: Distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense, or realized capital gain for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset value per share of the Fund.

OTHER: The Fund records security transactions on the trade date. Dividend income is recognized on the ex-dividend date. Interest income is recognized on an accrual basis. The Fund uses the specific identification method in computing gain or loss on sale of investment securities. Discounts and premiums on securities purchased are amortized over the life of the respective securities.

3. SECURITIES VALUATIONS

As described in Note 2, the Fund utilizes various methods to measure the fair value of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 - Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 - Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy

TARKIO FUND

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOVEMBER 30, 2015 (UNAUDITED)

within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

FAIR VALUE MEASUREMENTS: A description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis follows.

Equity securities (common stock) - Equity securities are valued by using market quotations furnished by a pricing service when the Adviser believes such prices accurately reflect the fair value of such securities. Securities that are traded on any stock exchange are valued by the pricing service at the last quoted sale price. Lacking a last sale price, an exchange traded security is valued by the pricing service at its last bid price. Securities traded in the NASDAQ over-the-counter market are valued by the pricing service at the NASDAQ Official Closing Price. When market quotations are not readily available, when the Adviser determines that the market quotation or the price provided by the pricing service does not accurately reflect the current fair value or when restricted or illiquid securities are being valued, such securities are valued at a fair value as determined by the Adviser in good faith, in accordance with guidelines adopted by and subject to review of the Board of Trustees. Manually priced securities held by the Fund (if any) are reviewed by the Board on a quarterly basis. To the extent these securities are actively traded and valuation adjustments are not applied, they are classified in Level 1 of the fair value hierarchy. If the Adviser decides that a price provided by the pricing services does not accurately reflect the fair value of the securities, when prices are not readily available from a pricing service or when restricted or illiquid securities are being valued, securities are valued at fair value as determined in good faith by the Adviser.

Money market mutual funds are generally priced at the ending NAV provided by the service agent of the funds. These securities will be categorized as Level 1 securities.

Fixed income securities - Fixed income securities such as corporate bonds and U.S. Government Securities when valued using market quotations in an active market, will be categorized as Level 1 securities. However, they may be valued on the basis of prices furnished by a pricing service when the Adviser believes such prices more accurately reflect the fair value of such securities. A pricing service utilizes electronic data processing techniques based on yield spreads relating to securities with similar characteristics to determine prices for normal institutional-size trading units of debt securities without regard to sale or bid prices. These securities will generally be categorized as Level 2 securities. If the Adviser decides that a price provided by the pricing service does not accurately reflect the fair value of the securities, when prices are not readily available from a pricing service, or when restricted or illiquid securities are being valued, securities are valued at fair value as determined in good faith by the Adviser, in conformity with guidelines adopted by and subject to review of the Board. These securities will be categorized as Level 3 securities. Short term investments in fixed income securities with maturities of less than 60 days when acquired, or which subsequently are within 60 days of maturity, are valued by using the amortized cost method of valuation. These securities are categorized as Level 2 or Level 3, when appropriate.

TARKIO FUND

NOTES TO FINANCIAL STATEMENTS (CONTINUED) NOVEMBER 30, 2015 (UNAUDITED)

The following table summarizes the inputs used to value the Fund's assets measured at fair value as of November 30, 2015:

There were no transfers into or out the levels during the six months ended November 30, 2015. The Fund records transfers into and out of the levels as of the end of the reporting period.

The Fund did not hold any Level 3 assets during the six months ended November 30, 2015. The Fund did not hold any derivative instruments at any time during the six months ended November 30, 2015.

4. RELATED PARTY TRANSACTIONS

INVESTMENT ADVISER: Front Street Capital Management, Inc. (the "Adviser") serves as investment adviser to the Fund. Subject to the authority of the Board, the Adviser is responsible for management of the Fund's investment portfolio. The Adviser is responsible for selecting the Fund's investments according to the Fund's investment objective, policies and restrictions and as compensation for its management services, the Fund is obligated to pay the Adviser a fee computed and accrued daily and paid monthly in arrears at an annual rate of 0.75% of the average daily net assets of the Fund during the term of the Investment Advisory Agreement ("Agreement") as amended on July 29, 2013.

Under the Agreement, the Adviser, at its own expense and without reimbursement from the Trust, furnishes office space and all necessary office facilities, equipment and executive personnel necessary for managing the assets of the Fund. Under this Agreement, the Adviser pays the operating expenses of the Fund excluding fees payable under the Agreement and the Services Agreement, brokerage fees and commissions, taxes, interest expense, the costs of acquired fund fees and expenses, and extraordinary expenses. For the six months ended November 30, 2015, the Adviser earned \$110,347 in Advisory fees. At November 30, 2015, the Fund owed the Adviser \$19,011.

The Fund entered into a Services Agreement with the Adviser. Under the Services Agreement, the Adviser receives an additional fee of 0.25% of the average daily net assets of the Fund and is obligated to provide executive and administrative services, assist in the preparation of the Trust's tax returns and various reports to shareholders, and provide non-investment related statistical and research data. For the six months ended November 30, 2015, the Fund incurred \$36,782 in service fees. At November 30, 2015, the Fund owed \$6,337 in service fees to the Adviser.

Officers and a Trustee of the Trust are also Officers of the Adviser.

TARKIO FUND

NOTES TO FINANCIAL STATEMENTS (CONTINUED) NOVEMBER 30, 2015 (UNAUDITED)

Income and long-term capital gain distributions are determined in accordance with Federal income tax regulations, which may differ from accounting principles generally accepted in the United States.

8. DISTRIBUTIONS TO SHAREHOLDERS

The tax character of distributions paid during the years ended May 31, 2015 and 2014 were as follows:

	<u>2015</u>	<u>2014</u>
Ordinary Income	\$ 7,907	\$ -
Long-term Capital Gain	\$ 561,637	\$ 92,566

The Fund did not pay any distributions for the six months ended November 30, 2015.

9. CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the fund, under Section 2 (a) (9) of the Act. As of November 30, 2015, TD Ameritrade, Inc. held in omnibus accounts for the benefit of others approximately 70% of the voting securities of the Fund. The Fund does not believe that any of the beneficial shareholders underlying the omnibus account hold greater than 25% of the voting securities of the Fund.

10. SUBSEQUENT EVENTS

The Fund is required to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the Statement of Assets and Liabilities. For non-recognized subsequent events that must be disclosed to keep the financial statements from being misleading, the Fund is required to disclose the nature of the event as well as an estimate of its financial effect, or a statement that such an estimate cannot be made. Management has evaluated the impact of all subsequent events on the Fund through the issuance date of these financial statements and has noted no such events requiring accounting or disclosure.

Expense Example

As a shareholder of the Tarkio Fund, you incur two types of costs: (1) transaction costs which consist of redemption fees; and (2) ongoing costs which consist of management fees and service fees. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Funds and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, June 1, 2015 through November 30, 2015.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in this Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

	Beginning Account Value	Ending Account Value	Expenses Paid During the Period*
	<u>June 1, 2015</u>	<u>November 30, 2015</u>	<u>June 1, 2015 to November 30, 2015</u>
Actual	\$1,000.00	\$906.08	\$4.78
Hypothetical (5% Annual Return before expenses)	\$1,000.00	\$1,020.05	\$5.06

* Expenses are equal to the Fund's annualized expense ratio of 1.00%, multiplied by the average account value over the period, multiplied by 183/365 (to reflect the one-half year period).
